EcoFlex™ ONE

ALL-IN-ONE FLOORING SOLUTION

Every element in the EcoFlex™ ONE construction has purpose, and combined they form the industry's leading modular carpet solution. The hydrophobic PET cushion, backing layers, and Duracolor Tricolor fiber are engineered with your end-goals in mind: to optimize your investment, be sustainably made, and provide a better occupant experience.

KEY FEATURES

- Better Acoustics
- Enhanced Comfort & Safety
- Worry-Free Installation
- Simplified Maintenance
- NSF 140 Platinum
- Carbon Neutral +5%
- Adhesive Free
- Limited Lifetime Warranty

EcoFlex™ ONE is a unified solution to the wide range of needs in your spaces. This advanced backing system improves every aspect of comfort and acoustics while eliminating moisture testing—all with a lighter environmental footprint that is carbon neutral plus an additional 5% offset. Tested and proven, EcoFlex™ ONE is the holistic solution for human-centric environments.

EcoFlex™ ONE works with the FlexLok+ tab system to virtually eliminate harmful VOC's with an easy-to-use, odorless dry installation that replaces traditional wet spread adhesive methods.

Installation Instructions:

Mohawk Group warrants its adhesives for the life of the original installation only when a Mohawk Group style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Group adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.

Mohawk Group is providing this architect folder for the purpose of promoting our commercial business. This folder and its samples shall remain the property of Mohawk Group. Color may vary from dye lot to dye lot. Substitution of material may be made due to improved technology, supply limitations or other factors. The performance of this product is not affected by such variations.
