VISUAL EDGE

Visual Edge offers a new take on hierarchy and structure with a flowing graphic pattern derived from nature. With biophilic principles in mind, the hexagonal design features layered elements and scale changes that produce a wayfinding effect throughout the installation. Visual Edge's patterns can expand or decrease in scale to adjust to the ever-changing formats in the built environment to give designers their own *edge*.

Visual Edge styles Angled Perception and Hidden Dimension come in 12" x 36" plank formats. The collection is carbon-neutral and manufactured using ColorStrand solution-dyed nylon fiber on Red List-free EcoFlex Matrix carpet tile backing. Additionally, Visual Edge is Living Product Challenge Petal Certified, leaving a net positive impact for people and the environment through innovations in materials, manufacturing and community involvement.
